# About us

## **P2P helping first time in crypto and fiat currency**

A cryptocurrency is a digital currency, which is an alternative form of payment created using encryption algorithms. The use of encryption technologies means that cryptocurrencies function both as a currency and as a virtual accounting system. To use cryptocurrencies, you need a cryptocurrency wallet. Cryptocurrency, sometimes called crypto-currency or crypto, is any form of currency that exists digitally or virtually and uses cryptography to secure transactions. Cryptocurrencies don't have a central issuing or regulating authority, instead using a decentralized system to record transactions and issue new units.

# Our Vision & Mission

## Vision

Real Vision is a financial research and community platform that's been bringing truth to finance since 2014. At the crossroads of macro, crypto, and Web 3 investing, we arm our global community

## Mission

A crypto mission is a feature on the Crypto.com app that rewards users with Diamonds for completing tasks. These Diamonds can be used to redeem rewards in the Crypto.com Store, such as Mystery Boxes
